Honors Biology Intro Concepts Mr. Dooner/Carmel High

ASSIGNMENT:

- 1. Using your Chromebook, do a Google search for "California Science Framework". Open the PDF and scroll down to page 9 where you will see the "State Board of Education Policy on the Teaching of Natural Sciences.
- 2. The document is a little over a page in length and you should read it carefully(more than once if you think it is necessary).
- 3. When you are finished, close your Chromebook and address the following in the space below:

What does the State Board of Education mean when they say 'Nothing in science shall be taught dogmatically'? Are there any exceptions to the policy of not allowing excusal from science content?

RUBRIC:

- 10- The response sufficiently explains the concept of dogma, the nature of science, and cites two exceptions to the general policy.
- 7- The response partially explains the concept of dogma, provides a limited definition of the nature of science, and cites two exceptions to the general policy.5- The response provides an unclear concept of dogma, fails to relate it to the nature of
- science, and provides less than two examples of exceptions to the general policy.
