

CLOSE READING QUESTIONS

To accompany

“Cells and Chromosomes” in Coming to Life by Christianna Nusslein-Volhard

1. Perform a brief internet search and write a short, one-paragraph biographical sketch of Dr, Nusslein-Volhard. Use citations.
2. Write a brief synopsis(2 or 3 paragraphs maximum) of the main ideas/concepts that are articulated in this chapter of Dr. Nusslein-Volhard's book.
3. Identify five key biological terms which she uses in the chapter, and use an internet dictionary to define them. If possible, choose terms that were not used in our textbook reading or terms which you feel are particularly essential to understanding the concepts we are studying.

DUE: Friday November 16th; Typed; please include the questions and place them in bold or italicized
