

Exercise in Academic Integrity and Assessment of Cellular Respiration

By signing below, I am indicating that I have reviewed the attached sample University Honor Code and that I understand the standards of academic integrity to which I will be held at the university level.

I further indicate that I have read and will abide by the conditions for this Take-Home Assessment on cellular respiration which are listed below:

1. *This is a graded, take-home assessment which will be due at the beginning of the period on Monday October 28, 2019. No late assessments will be accepted.*
2. *This is a limited collaborative assessment. You are not permitted to collaborate or receive assistance of any kind, in person or electronically, from any individual not enrolled as a student in 2rd or 4th period AP Biology at Carmel High School. You are not permitted to collaborate or receive assistance of any kind from any adult or educator, in person or electronically, except for the instructor of this course, Thomas Dooner.*
3. *You are not permitted to use any Internet resources, accessed by computer, phone, or other means, in the completion of this assessment.*
4. *You are not permitted to use any materials, written, graphic, video or otherwise, which were not issued, distributed, or made available to you by the instructor of this course, Thomas Dooner.*
5. *If you choose to collaborate with other individuals enrolled in this class, you cannot share a specific answer or list of answers unless discussion of the question and the answer choices has occurred between the individuals involved.*
6. *The posting or acquisition of the answers to this assessment online is not permitted.*
7. *Providing a classmate with the answers to a question or questions, in the absence of discussion, is not permitted. It is not permitted in person, electronically, or otherwise.*
8. *I may randomly select individuals to justify their answer selections on Monday.*

We build integrity by being exposed to situations where we have to exercise it.
