

Climate Change  
Discussion Questions  
Honors Chemistry 2018

1. What are the three main chilling facts contained in the November 2018 Climate Report, according to the article published in The Atlantic?
2. What are the four main problems with the November 2018 Climate Report, according to the article published in The Daily Signal?
3. Do some brief research into those two publications. Who is their audience? Do they have a history of editorial bias? What is the bias?
4. Do additional research into the November Climate Change report and write a brief summary of your findings? What is your source?
5. How would you go about reconciling the two opposing perspectives found in the articles from The Atlantic and The Daily Signal? Should you have to?
