

# Instructions for Math Test Corrections

**Eligibility:** Only students who scored below a 70%(C) may submit test corrections to earn back points. (Anyone with an A, B, or C may submit them to learn from their mistakes, but no additional points will be awarded.)

## **Supplies Required:**

- Your test
- Pencil
- Test Corrections Worksheet

*\*\*\*You have roughly 1 week from the date a test is returned to submit test corrections for additional points.*

## **To earn back points on the problems you missed, you must do the following:**

- Write the number of the problem on the short line above the box
- Rework the problem in the box provided (You may use another nearby box if more space is needed.)
- Check to be sure you get a DIFFERENT answer than the one you got on your original test (If you get the same answer as before, you are still doing something incorrectly.)
- On the lines below the box, you must write a short statement about what you think you did wrong or explain your error
  - This is sometimes the hardest part, but you need to make a good effort.
  - **It is never okay to just say “I did the math wrong.” Be specific.**
- Follow these steps for all problems you want to earn back points.
- If you need help with your corrections, make an appointment to come see me.
  - During lunch
  - OR
  - Make a plan to meet me during your Study Hall, if you have one.
